## MGEF Celebrates MG Kindergarten Teachers – Past and Present!

Each year, the Monona Grove Education Foundation awards grants to teachers who apply for funding for innovative, creative and out-of-the-box plans for their MG students. MGEF grants allow Monona Grove's teachers to push themselves and their colleagues to explore innovative and imaginative teaching methods for the children of our district. The grant winners are featured each year at MGEF's annual fund raising event which celebrates the entire Monona Grove School District.

This year the *MG Education Foundation Celebration* will be held on Saturday, **November 3, 2018**. In addition to the 2017-18 grant winners, the 2018 Celebration will honor Monona Grove Kindergarten Teachers, both past and present. Sponsorship opportunities and individual tickets will be available starting in early Fall. Please save the date for this Celebration of the Monona Grove School District. Check our website (<http://www.mononagrove.org/welcome/education-foundation.cfm>) later this summer to see the official announcement and learn how you can buy tickets to the event.

As part of our Celebration of Kindergarten Teachers we are asking that you send a memory or story about your or your child's kindergarten teacher. You can submit them to [mgefcelebration@gmail.com](mailto:mgefcelebration@gmail.com) or on the MGEF Facebook page. Submissions via email may be posted to our Facebook page.

## Brandt Donation Funds Student Career Exploration

In December, 2017, MGHS Associate Principal **Kris Langer**, and Career and Technical Education Coordinator **Jennifer Macias**, presented a proposal to the Monona Grove Education Foundation Board for the use of the Albert E. Brandt Memorial Fund. The Brandt family envisioned this fund being used to create a program for Monona Grove students to prepare them academically to explore all career options suited to their abilities and assist in developing meaningful and achievable life time goals. Monona Grove High School plans to use some of the funds to sponsor trips for groups of students to explore different post-graduation career and education options. By getting them on campus for a real-time experience of what life could be like academically after high school, students are able to more easily visualize themselves in these scenarios. This then increases their motivation to pursue further education after high school.

In the spring of 2018, two trips to Madison College were planned to allow students to explore the following areas: Applied Science, Engineering and Technology, Health Education, Arts and Science, Human and Protective Services and Business. The visits included a 30 minute overview presentation, a one hour major specific tour, and a 30 minute review of the application process and prerequisites for applying to Madison College. For the 2018-2019 school year, the plan is to expand the trips to include state schools, technical schools, cosmetology schools and other specialty schools to appeal to a variety of different students on different paths.

**Langer** and **Macias** are looking forward to exposing MGHS students to the opportunities that exist for them!
